Who we are

ENTRA Agregación y Flexibilidad was founded in 2018 and is the Spanish association for aggregation and flexibility. One of its main objectives is to enable an electricity system in which demand plays a more active role, working to ensure that energy aggregation in Spain has a regulatory framework that enables the efficient management of flexibility and in which demand can participate in the energy market.

ENTRA Agregación y Flexibilidad brings together the most important and innovative players and companies of energy services and market-based technologies and their models of sustainable grid structure.

VISION

Demand side flexibility (DSF) and distributed resources are key to the energy transition.

MISSION

Support the European regulatory framework and promote decarbonised energy models through aggregation and flexibility.

Objectives

- Flexibility market participation in all existing and new markets on a non-discriminatory basis.
- Recognition of Demand Side Flexibility as a tool for security of supply and optimisation of mix and renewable generation.
- Implement effective national regulation for distributed electricity resources and efficient regulation for the system as a whole.
- Active role of consumers, communities and aggregators and their participation in the market.
- Promote innovative Demand Side Flexibility solutions in Spain.
- Promote local flexibility markets and the capacity market.
- Establish a minimum flexible capacity target.
- Placing the active consumer at the heart of the energy transition

Partners

- Executive and founding member of the European association **SmartEn**.
- Members of **OMIE** Market Agents Committee.
- Members of **Enerclub**
- **CNMC** Interest Group
- Members of the organising committee of **GENERA** and **Net Zero Tech**

Membership Types

At **ENTRA Agregación y Flexibilidad** there are two types of membership with specific associated fees and benefits.

Associates

Observers

Benefits and Advantages Associates

Associates

- **Legislative processes**

Continuous updates on regulatory developments and relevant initiatives. We represent the interest of our associates by translating it into legislative, policy and regulatory action.

- **Market Intelligence**

Exclusive access to market intelligence: up-to-date information on current decisions and plans of different stakeholders and policymakers.

- **ENTRA Events**

We organise events that are followed with great interest by key stakeholders in the sector. They discuss issues of interest to our associates, increasing their competences and visibility.

- **Updates**

Up-to-date information through regular newsletters and update meetings summarising relevant information.

- **Innovation**

Promotion of innovative ecosystem for European and Spanish innovation projects. joint participation in innovation projects and/or sandboxes.

- **Public Relations**

ENTRA leads the flexibility narrative, connecting with the public through publications, press, radio and television.

Working groups

Working Groups are created at the request of the associates and are activated when there is a minimum of six interested.

The currently active working groups are:

- **Storage Working Group**
- **Innovation Working Group**
- **Balancing Services Working group**
- **Electricity supply, Procurement and Demand Aggregation Working group**
- **Flexible Access Commission**
- **Local Flexibility Markets Commission**
- **Data Centers and Flexibility Commission**

How to join: Associate

EXPRESSION OF INTEREST

Organisations or companies interested in joining ENTRA express their motivations in a letter addressed to the members, together with an explanation of their activities. Members have a period of five days to submit justified allegations to the entry of the new associate and, if there are any, the Board of Directors will resolve them.

MEMBERSHIP FEE

The **membership fee to join ENTRA** as an associate is 10.000 euros, adjusted proportionally to the date of entry.

WITHDRAWAL FROM THE ASSOCIATION

The application for withdrawal from ENTRA can be made at any time before September of the current year.
